The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/587,251	<b>Applicant(s)</b> PAUER, BERND	
	<b>Examiner</b> RAMON M. BARRERA	<b>Art Unit</b> 2832	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 30 September 2008.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wallrafen, cited on applicant's IDS in view of Passow(US6642823).

Wallrafen disclosed the claimed invention except for an individual contact of the resistance device is assigned at least two tongues. Passow discloses employing bifurcated double-break contacts for the purpose of improving connection reliability (col. 5, lines 1-5). It would have been obvious at the time the invention was made to a person having ordinary skill in the art to employ in Wallrafen a contact with two tongues for the purpose of improving connection reliability.

### ***Response to Arguments***

Applicant's arguments filed 9/30/08 have been fully considered but they are not persuasive. Applicant alleges the tongues on Passow's contacts (106,107) are not each independently moveable toward a contact. Applicant asserts his own contacts are "independently movable because the tongues 10 and 11 each move independently and contact between the spring element 5 and the contact 7 can be established even if one of the tongues 10 or 11 is, in some way, prevented from establishing contact with the contact 7." In response, Passow in col. 5, lines 1-8, states: "The movable contacts

106 and 107 have split or bifurcated contact fingers to increase the probability that they will make contact with the stationary contacts even in the presence of surface oxides and/or foreign particles on the contact surfaces. Maintaining independent motion of the bifurcated tips of movable contacts which are stacked back to back requires that the movable contacts be slightly separated by an offsets in the contact fingers." Therefore, the examiner does not see a patentable distinction in applicant's claim.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to RAMON M. BARRERA whose telephone number is (571)272-1987. The examiner can normally be reached on Monday through Friday from 11 to 5PM.
